

Minsk Peace Conference With Reds Farce, Believes Polish General.

RUSS USE ANY MEANS TO END.

Underestimating Man Power of Bolshevik Mistake.

Soviet Using All Methods to Keep Poles Alone.

Crops Stripped from Country Crossed by Invaders.

BY COL. HENRY J. REILLY.

(BY CABLE—EXCLUSIVE DISPATCH.)

WARSAW, Aug. 29.—One Rossowski, chief of the Polish General Staff, received me this morning.

"Now that the Bolshevik campaign has ended, because of the virtual destruction of the Bolshevik army, there are no more battles when will the next campaign occur?"

GENERAL'S OPINION.

The general replied: "Underestimating the Bolshevik strength is a great mistake. It is necessary to consider it from two points of view; one, a military, the other, symbolic. The citizens of the country attacked, because the Bolsheviks rely upon disorders and uprisings in the rear, aiding their attacking armies. Also, underestimating of our forces leads to contempt of our troops which talk as sincere when they never were in the past and are not so now."

"I know from intercepted dispatches and from communications to Kravtsov that the Minsk conference like all preceding peace negotiations only is intended to prevent our getting outside help and, if possible, to cause dissensions among ourselves, so that the result of the talks will be a farce. Our delegates are prisoners deprived of all their usually accorded facilities."

DECEIT LEGITIMATE.

"The methods pursued constitute another link in the long chain of evidence that the Bolsheviks unscrupulously violate international diplomatic usages, considering the gravest offenses as legitimate."

"We know that the Bolsheviks have organized seventy odd divisions; our victory accounts for twenty or thirty. Their losses in all approaches 150,000."

"In their man power virtually is unlimited and makes replacement only a question of time. As an example, Budenny's cavalry in the south lost practically half its strength during its advance to present position before Lemberg. Now, practically, it is at full strength, due to replacements easily drawn from an unlimited supply of European and Asiatic Cossacks."

The Bolsheviks are well supplied with arms and equipments of all kinds, taken from Kolchak, Denikin and Yudenich, large stores of reserves and supplies accumulated at their bases for future use and left behind when the British evacuated the Murmansk Coast.

The Bolsheviks hope respecting our civil population were disappointed. But some sympathizers succeeded in burning several French tanks and an ammunition supply stored in Prague, the northern Warsaw suburb.

LAST ACT OF CAMPAIGN.

I have just returned from Bielskoye. The capture of this town, plus the rapid advance to Grajewo, on the East Prussian southern border, forms the last act of the campaign begun in the Polish sector. From Beresina-Dnieper River line to the outer defenses of Warsaw and the Vistula's bank west and also south of the city.

Then came the successful Polish counter-attack leading to the dis-

persal or capture of four Bolshevik armies and the Moeser group, known as the eastern Bolshevik army, which had as its mission the capture of Warsaw and the cutting of the Danzig corridor.

After the capture of Bielskoye the crack Polish mountain division was released by other troops and was moved northward, thus closing the gap between the two Polish armies. This movement was completed in time to cut off the greater part of the retreating Bolsheviks.

Everywhere along the attempted line of retreat from the west of Miava to the west of Bielskoye, remnants of the Red armies are willingly surrendering or being rounded up.

Generalissimo Victor is declared because the eastern Bolshevik army made up of the Fourth, Third, Fifteenth and Sixteenth armies and the Moeser group, have ceased to exist as military forces.

CROPS ARE DESTROYED.

By Parke Brown.

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, Aug. 29.—Between now and November 11 the fate of Paul Deschanel, President of the French Republic, will be decided. Even if the President's life is spared until that date, there is now little prospect that he will continue as head of the republic.

Alarist reports even now are in circulation that the President's end may come within a month. Deschanel can see visitors in his sickroom only half an hour. At the end of this period he relapses into his state of melancholia.

He complains that he is being spied upon; that he has been watched by Bolsheviks and surrounded by angry dogs.

COMPLAINS TO VISITORS.

The President tells his visitors that the locks of his doors have been changed or that the wrong keys have been given to him to prevent his going out.

Some of the precautions have in fact been taken. When Deschanel is seized with one of his fits it is impossible to tell what he may do. He is often possessed with the idea that he must kill himself. He has great fear that any day he may elude the watchers which have been set over him and succeed in carrying out his threat of suicide.

Nationalistic and monarchial feelings have already been begun by speculators, but it is impossible for the government to beat this game without big supplies of its own bread and grains to put on the market. The situation probably will be brought to the attention of the United States and the woosed up world, joinedly, will draw from an unlimited supply of European and Asiatic Cossacks.

The Bolsheviks are well supplied with arms and equipments of all kinds, taken from Kolchak, Denikin and Yudenich, large stores of reserves and supplies accumulated at their bases for future use and left behind when the British evacuated the Murmansk Coast.

The Bolsheviks hope respecting our civil population were disappointed. But some sympathizers succeeded in burning several French tanks and an ammunition supply stored in Prague, the northern Warsaw suburb.

HONOLULU WOMEN ARE ALLOWED TO REGISTER

MAYOR ISSUES INSTRUCTIONS TO COUNTY CLERK: CREDITS PRESS ADVICES.

(BY CABLE AND ASSOCIATED PRESS.)

HONOLULU (T. H.), Aug. 29.—Women are to be permitted to register here for a city election for the first time next Monday. Official notification has not been received of the enfranchisement of women through ratification of the Nineteenth Amendment, but Mayor C. C. Young has instructed the County Clerk, on the authority of dispatches of the Associated Press announcing the ratification, to register such women as desired to vote.

This action followed failure of the Interior Department to reply to a telegram from Gov. McCarthy asking for immediate official advice on the ratification.

DESCHANEL IS LIKELY TO QUIT.

President of France Very Ill, is Report in Paris.

ALARMISTS FEAR HIS END MAY COME WITHIN MONTH.

Violent Fits of Anger or Melancholia Likely.

BY RALPH COURTEY.

(BY CABLE—EXCLUSIVE DISPATCH.)

PARIS, Aug. 29.—Between now and November 11 the fate of Paul Deschanel, President of the French Republic, will be decided. Even if the President's life is spared until that date, there is now little prospect that he will continue as head of the republic.

Experts predict the suffering next winter will be tremendous unless aid on a big scale is provided from the United States and friendly European countries.

The country must import much grain, especially barley, oats and rye, although it is without means to go into a foreign market for even a small part of that amount. Therefore, experts say, other nations must help the relief work, with extensive credits for breadstuffs, and continue the relief work, such as feeding children, without diminution.

The wheat fields of the entire section north of the Vistula are swept clean due to the advance and retreat of the Bolsheviks.

All that is left is barley sufficient for the farm population and seedling. Towns in this section must be provided from the outside with food.

Frost last fall reduced the planted areas to 90 per cent of last year's total and dry weather recently prevented the sowing out and ripening of 70 per cent of the barley yield. This Food ministry is planning to force the use of barley, potatoes and oats for human consumption, but this process is flight refuted.

Nationalistic and monarchial feelings have already been begun by speculators, but it is impossible for the government to beat this game without big supplies of its own bread and grains to put on the market. The situation probably will be brought to the attention of the United States and the woosed up world, joinedly, will draw from an unlimited supply of European and Asiatic Cossacks.

The Bolsheviks are well supplied with arms and equipments of all kinds, taken from Kolchak, Denikin and Yudenich, large stores of reserves and supplies accumulated at their bases for future use and left behind when the British evacuated the Murmansk Coast.

AMUNDSEN OFF FOR POLE.

(Continued from First Page.)

Nansen Theory is Used by Explorer in His Latest Effort at Discovery.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Aug. 29.—Trails blazed across the Arctic ice pack a quarter of a century ago by Fritjof Nansen, Norwegian explorer, were expected to be followed, for a distance, by Nansen's fellow-countryman, Capt. Roald Amundsen, discoverer of the South Pole, when he left Nome, Alaska, recently to drift across or alone the Greenland coast.

FIND ESKIMO STICK.

A "throwing stick" used by Alaskan Eskimos was found, it has been claimed, in driftwood on a Greenland coast, with a message on the stick. It was argued, lodged on an ice floe which carried them across the Polar wastes to Greenland.

Nansen found the drift not as far as he had expected, because the Polar basin was much deeper than he had believed. He also discovered that the wind determined, to a great extent, the course of the drifts. The Fram was carried to within 350 miles of the pole and later cleared the ice near Greenland.

When the drifting Fram arrived at Nome, Capt. Nansen attempted to reach the pole over the ice. With one companion he left the ship and, in what has been described as the most dangerous ledge journey ever undertaken, proceeded to the eighty-sixth degree, at that time the farthest north ever reached by man. There he turned back.

PLAN ON THEORIES.

Explorers' theories that an Arctic Ocean current starts near the New Siberian Islands, which lie between the Polar Sea, across or near the pole, and finally ends at Greenland, in the Atlantic, were encountered again.

Polish patrols reconnoitering the shores of the Augustow region toward Suwa were encountering no resistance. Polish patrols sent eastward from Dubrovsk found the Red positions deserted. Aviators reported these Bolsheviks retiring toward the Pines.

DISPATCH ON SOVIETS.

(BY CABLE—EXCLUSIVE DISPATCH.)

WARSAW, Aug. 29.—Thousands of Russian prisoners captured by the Poles in the last ten days are now gladly promising to join the anti-Bolsheviks and march against the soviet army.

Others are heading back to cities with salt, sugar and provisions, as was done during the Kiev drive, the Poles believe.

Prisoners of war are being set free and some are even willing to accept the offer of the Poles.

Others are heading back to cities with salt, sugar and provisions, as was done during the Kiev drive, the Poles believe.

Prisoners of war are being set free and some are even willing to accept the offer of the Poles.

WEEK'S COTTON MARKET.

(EXCLUSIVE DISPATCH.)

HOUSTON, Aug. 29.—After making new low records this week for the present movement in the cotton market with middling spot cotton on this market touching 21 cents early in the week, prices rallied towards the close and Saturday night recovered to 21.25, the week's high point, or \$2.25 per bale. The future market made a smart recovery, likewise, during the week from the depression that reigned ten days ago.

On Monday, when the depression was at its height, the price of 21 cents, while December went to 24.75 cents.

Railroads made a profit during the week, Saturday prices shot up to 137 points in New York and to 120 points in New Orleans.

Over Monday, when the market was at its lowest, the price of 21 cents, while December went to 24.75 cents.

There was a sharp recovery in the market during the week, Saturday prices shot up to 137 points in New York and to 120 points in New Orleans.

Over Monday, when the market was at its lowest, the price of 21 cents, while December went to 24.75 cents.

FRANCE MUST IMPORT AMERICAN FOODSTUFFS.

(BY A. P. NIGHT WIRE.)

CHICAGO, Aug. 29.—Leaders in the Republican party spent the day preparing a mass of documentary evidence to be presented to the Senate committee investigating communism, including arms and ammunition, and the use of the Red Cross.

They are in fear of not being able to do the best possible, in view of the seriousness of the issue.

The German authorities are unable to control the situation, which has become separated from the main body, were attacked from the rear by a large force of retreating Reds, which drove the Poles ahead of them toward the border, where the Poles crossed over to the Riga, a close second, both being interned.

FEAR OF GERMANY.

The Germans now fear the possibility of the Russo-Polish conflict being fought out on East Prussian soil, particularly if the Russian counter-attack succeeds in cutting communications to the south of the border.

They say if many thousands of Polish are driven across the border into the same area where thousands of Reds are now interned, hostilities may break out immediately, with the Polish Internationals coming to the rescue of their children when planes arrive.

CUTTERS HURRYING TO HELP OF YACHT.

(BY CABLE AND ASSOCIATED PRESS.)

NEGRO-MANNED VESSEL IS HELPLESS OFF COAST OF NORTH CAROLINA.

(BY A. P. NIGHT WIRE.)

NORFOLK, Aug. 29.—The coast guard cutter Manning, passed Cape Henry today to the assistance of the steam yacht Kanawha, of the Black Star Line, reported in distress off Beaufort, N. C. The cutter Seminole also has gone to her assistance.

Wireless messages from the Kanawha said she was completely disabled.

The Kanawha, formerly the passenger yacht of late H. H. Rogers, recently was purchased from the Shipping Board by the Black Star Line, a negro company, to be used in negro passenger service between New York and Havana. She is manned by thirty-nine negroes but carries no passengers.

Pain. Protection is Economy

A building painted with W. P. Fuller & Co.'s Paint is wrapped in a weather-tight covering.

Dwellings, Barns, Fences and other structures, whether of Wood, Metal or Concrete should be preserved from decay and disintegration by the use of good paint. A square yard of paint coating upon a surface costs a few cents, yet it will beautify and protect dollars' worth of property for many years. Destructive elements are always at work, a little chip here, a little spot of decay somewhere else, and soon the building is an old building, and paint, W. P. Fuller & Co.'s Paint, would have prevented the destruction.

TAFT EXPLAINS AMENDMENT.

Nineteenth Change in Constitution Follows Fifteenth, Which Has Been Declared Perfect by Supreme Court, and Women of Nation Forthwith Have Rights.

BY WILLIAM HOWARD TAFT.

(Copyright)

The amendment to the Federal Constitution, which has now been adopted by the affirmative vote of the Legislature of Tennessee as the thirty-sixth State to ratify it, reads as follows:

"The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex."

This is called the "Anthony" amendment, so named because it was introduced into Congress more than forty years ago at the instance of Susan B. Anthony, one of the leading advocates of woman suffrage. The suffrage amendment was drawn in the exact words of the Fifteenth Amendment, which provides that no State shall make any law which discriminates against colored people in the election of members of Congress.

Both amendments contain a second section following: "The Congress shall have power to enforce this article by appropriate legislation." It was very wise in the framers of the Anthony amendment to follow in exact words the Fifteenth Amendment, because it has been construed by the Supreme Court in several cases, and its effect upon State legislation as to elections and electors has been made clear beyond dispute.

The Supreme Court has affirmed that women have always been citizens of the United States if born or naturalized in the United States, and that the Fourteenth Amendment did not intend that citizens of the United States carried with it the right to vote. The court expressed the unanimous opinion that the Constitution did not confer the right of suffrage upon women, and that the constitution and laws of the several States which committed that important trust to men alone were not valid.

It held that the Fifteenth Amendment did not confer the right of suffrage upon any one, but that it merely prevented the States or the United States from giving preference, in this particular, to one citizen of the United States over another on account of race, color or previous condition of servitude.

ALL WOMEN WHO ARE OTHERWISE QUALIFIED WILL HAVE THE RIGHT TO VOTE IN THE NOVEMBER ELECTION.

In subsequent cases, however, where it was contended in view of this principle that Congress could not protect the right to vote of negroes by enacting the Fifteenth Amendment, and explained its previous ruling in the language of Mr. Justice Miller, as follows:

"While it is quite true, as is said by this article, that the United States does not give the right of suffrage to any one, it does not give the right of suffrage exclusively to white men, as a qualification for voting, this provision did, in effect, confine this right to white men, because, as is well known, negroes are entitled to the franchise, and thus to block action on women under this article.

"In all cases where the former article has been removed from their constitutions the words 'white man' as a qualification for voting this provision did, in effect, confine this right to white men, because, as is well known, negroes are entitled to the franchise, and thus to block action on women under this article.

"Of course a woman cannot vote, if she had been a man, could not have voted under the laws of the State where she lives. She must, in all respects, have the qualifications which men voters must have under the election law; but, if she fulfills those requirements, she can vote and the State law can do nothing to prevent her from doing so.

"It may well be that the doubling of the number of voters in every State by this amendment will require, for the convenience of voters, amendment to the election laws of each State, but such inconvenience cannot be made any excuse for preventing women from exercising the franchise. The anti-suffragists' efforts, except, however, to contest the constitutionality of the ratification by the Tennessee Legislature under the following clause in the constitution:

"No State shall make any amendment to this Constitution which shall not be submitted to a convention of the people of the State for its ratification."

REPORT AMBASSADOR
DAVIS IS TO RESIGN.

(By A. P. NIGHT WIRE)
WHEELING (W. Va.) Aug. 29.—

Two former U. S. Ambassadors to Great Britain, announced here that in recent letters to them, Mr. Davis had said he would resign his post and would become a member of the New York law firm.

Mr. Davis arrived from England several days ago on what was officially termed a "visit." The former ambassador, John J. Coniff, said that Mr. Davis had written them to the effect that he was "coming back home to go to work."

The constitution of Ohio provides that the Legislature shall be subjected to a referendum by the people if properly invoked under the law. The Legislature of Ohio ratified the Nineteenth Amendment. The Secretary of State proclaimed the adoption of the amendment by Indiana.

CASE NOW SETTLED.

The ratifying Tennessee Legislature was elected before the present suffrage resolution of Congress was submitted to the States. Fortunately for all, the question thus raised seemed to have been definitely settled by a unanimous judgment of the Supreme Court, in a case which involved a claim of invalidity of the amendment.

The constitution of Ohio provides that the Legislature shall be subjected to a referendum by the people if properly invoked under the law. The Legislature of Ohio ratified the Nineteenth Amendment. The Secretary of State proclaimed the adoption of the amendment by Indiana.

Will Speak on Subject at Governors' Meeting.

Labor Platform to be Told on Labor Day.

(BY A. F. NIGHT WIRE.) MARION (O.) Aug. 29.—Having put before his country his plan for a new association of nations, Senator Harding expects to turn his attention to other issues of the campaign in his speeches in the next two weeks with only an occasional reference to the League.

The next important problem on which he will publicly outline is the question of reorganization of banks. He will speak on that subject Tuesday to a group of Republican governors and nominees for governors from Western States.

BY MOTLEY H. FLINT,
Los Angeles Trust and Savings Bank.

COL. IRISH ON THE JAPS.

Land Student of Situation Replies to Charges of Senator Phelan.

The following statement by Col. Irish is printed in *The Times* in an effort to give fair presentation to both sides of a serious question.

BY COL. JOHN P. IRISH.

It is repeated that the present Japanese agitation, like the same movement of years ago, is not anti-Jewish, but anti-white. Christians, children, their blood in the rites of the Jewish pogrom. The leader of the Jewish pogrom is Senator Phelan, who has been a carrier of falsehoods, as people are carriers of typhoid. Mr. McClellan says there are 255 Japanese in Merced county, over 500 acres the best farm land in the state.

I immediately wrote to the Recorder of Merced county to let me know the acreage owned by Japanese. In reply he sent me the 1919 report of the County Assessor. Just made to the State Chancellery. Assessor says there are 255 Japanese in Merced county. They own 255 acres of farm land and thirty-seven Japanese children in the primary schools and two in the high school. The white neighbors of the Japanese all say they are good people in business with, and unquestionable.

On the 15th of last December, Phelan began his pogrom, publishing that an American had sold to Japanese 800 acres of land adjoining our town, to Japanese, and that the government had sold 800 acres to Japanese.

He charged that the government had sold one-half of the Monroe Doc-

ument that the Chinese government immediately produced with proof that it had sold anywhere.

Mr. Phelan made an anti-Japanese speech to the Commonwealth Club of San Francisco, in which he said that Japanese in California were three to one white birth.

The official report of the State Board of Health, sent to me by Mr. Root, Registrar of Vital Statistics, shows for 1919:

White births 56,593

Japanese births 4,371

The records of the Board of Health show more white births in the year 1919 than Japanese births in the full ten years recorded.

His speech on that occasion, other lies on this birth rate, like beads on a string.

PICTURE BRIDES.

In their statements made to the Commission on Immigration and the United States Senate, both Senator Phelan and Mr. McClellan said that there were in California 20,000 picture brides and that "they usually come from the Imperial Valley."

The official report of the California Board of Health for 1919 records 4,278 Japanese births in the State for that year. So that the imaginary picture brides, 20,000 in number, could not have escaped the notice of the newspapers and of the Japanese Consul. Mr. McClellan follows this with the statement that "No account can be taken of the picture brides who arrived." This is not true. They all had to land at the Immigration Station and be registered, undergo a physical examination, and the names recorded those of their husbands recorded.

In Mr. McClellan's statement to the Immigration Section of the Commonwealth Club, he said that the Japanese in California are 14,600.

After Gov. Stephens refused to make an extra session of the Legislature, and Japan, Mr. Phelan said in Washington that the Governor had received a letter from the Japanese Association warmly urging him to do so.

He also said in Washington that the Governor never received such a letter.

Recalling a question I asked him,

"What is the truth of the story

of the Senator's letter to the Japanese government?" he said, "I am a former and now an American citizen, and I am not a member of the Japanese Association."

He also said in Washington that the Governor never received such a letter.

He also said in Washington that the Governor never received such a letter.

TWO AUTO RACERS DIE IN CRASH.

Burn to Death Under Car at Santa Rosa; Boy Spectator Killed.

(By A. P. NIGHT WIRE.)

SANTA ROSA, Calif., Aug. 29.—Two automobile racers were burned to death beneath their overturned cars and a 7-year-old spectator who struck was instantly killed when a light car entered in the Sonoma County fair races here today left the track and crashed into a tree.

The dead are:

Arlo Beattie, pilot, Hanford, Calif.

Delbert Walker, 24, mechanician, Bakersfield, Calif.

Clarence Pragge, 7, Santa Rosa.

The accident happened in the ninetieth lap of the fifty-mile free-for-all race. Beattie, with a burst of speed, had put his car well in the lead of the other racers, when the left rear wheel threw a tire. The car careered off the track and into the trees. The gasoline tank exploded and burst into flames. The Pragge boy, struck down, was buried in the smoke. Two others were decapitated.

Several thousand persons in the grandstands for the climax day and events of the Sonoma County Fair witnessed the tragedy.

The Santa Rosa fire department was called to the race track to extinguish the blaze in the tree the racers struck, which took fire in the sheets of flaming oil and gasoline that followed the crash.

In the same event, and just prior to this accident, a car piloted by Gilbert Wells of San Francisco ran off the track and struck a tree. Wells was not seriously injured, and his machine was only slightly damaged.

RESIDED AT FRESNO.

(By A. P. NIGHT WIRE.)

FRESNO, Aug. 29.—Arlo Beattie, killed in Santa Rosa auto race, today, along with Delbert Walker, his mechanician, lived in Fresno up to three months ago, when he removed to Hanford. His brother, Woodruff Beattie, is employed in the Union National Bank here and his mother, Mrs. E. C. Beattie, resides at 1421½ Winfield street, Los Angeles. Another brother, Darrell Beattie, lives with his mother in Los Angeles. The dead man was born in Quitman, Mo., and came with other members of his family to California ten years ago. After serving in a bank in Los Angeles, Beattie went to Bakersfield, Inyo county, where he served in the Mono County Bank. From Bakersfield he came to Fresno and took part in several auto races, the most notable victory being in the Hanford Independence Day races in which he won the two feature races. He also ran in the Fresno Rainin Day races, and came in third, after an accident.

AIRPLANE HITS FORD.

Then Oliver Hines Haul Pieces Into Town.

(Exclusive Dispatch.)

HARLAN (Iowa), Aug. 29.—An airplane and a Ford machine gun were found near Corning, Iowa, yesterday. After the trouble was adjusted, the Ford helped haul the pieces of the airplane into town.

Davis Lawrence, a farmer, had been to town in his Ford, and on coming home he had some trouble and made a landing in the main road. After making repairs he attempted to arise, but his machine failed to take the load. When it did, the Ford came down the road. The engine and the left wings of the airplane were demolished. Repairs for the machine will cost about \$2000. The Ford suffered a bent fender and a damaged radiator.

The People and Their Daily Troubles

RAIBOWS and ROMANCE

BY JANE DIXON.

A certain amount of pride is good for a girl. An equal amount of vanity, given free reign to proun and puff and powder its nose in life's mirror can be, and very often is, deadly.

Pride is a just effort to lift oneself up, to hold one's head aloft, to attain a certain degree of self and society.

Vanity is a silly attempt to magnify a gift which in itself may be most worthy, but which under the garish light of vanity becomes of no more moment than the exaggerated glitter of a cut-glass "diamond" in a cheap window display.

This story concerns Peggy, the vain.

The girl is not denying the fact that a fluff of blonde hair, a pair of gentian blue eyes, a pink and white complexion and a baby mouth go to make up a Peggy ensemble which appears to certain eyes correspondingly known as the stronger.

Peggy resembles nothing so much as one of those beauteous bisque dolls that inhabit toy shops during the Christmas season.

She is in her element in Peggy like unto the bisque doll. She is just as empty of head and minus of heart as the smirking little creature with the faked wig. And when she rolls her glittering eyes behind the lids of which the curtains of her soul have been gradually lowered, one cannot help but wonder if a hidden hand is working the mechanism, and if, in a moment, the baby lips will fly open to reveal fangs.

And so it came to pass that on the very evening a famous man of the theater sought her out to play the part of a modern Venus in a magnificent special which was about to premiere. Peggy was in a near-by roadhouse sipping led drinks and purring to the patter of an elderly gentleman from Xenia, O., who was audibly wondering how he could ever get to the old life again after basking in the spell of her smile.

Another girl, less thrifty for lip praise, drew the prize. Peggy lost her opportunity to become a greatly advanced beauty, which was what she craved more than anything in the world.

Eventually when she found work interfered with her business of heart crushing, she gave up work and dedicated herself to the more fascinating occupation of driving men distracted.

"He was passed because I went out to dinner with Spandoff. Peggy would not let him forget it though. Just wait until he sees me."

The day arrived when even Peggy's most ardent admirers were forced to admit she was growing a bit cold about the whole business. She no longer considered it necessary to groom herself for the fray. She considered she was so beautiful that any extra attention to the picture was superfluous. Vanity had lost its system.

"Have you seen Peggy?" some one asked the other day. "She is looking pretty needy. Lost all her freshness. Thought she must have ducked her head in a sour barrel. And make up! All ready to go on for the first act."

Late hours, an endless succession

of parties, the rather strenuous task of making each of a dozen men think he is the only sweet potato in the patch, plays havoc with color and contour. So do cosmetics piled high and frequent trips to the dentist add such amount as will bring Nature back to fighting strength which, by the way, it never does.

Today Peggy is rather a problem. The girl is white and pale, and no place for her present artificiality. Art is the ally of nature, and there is nothing natural about Peggy.

There was a time when the blue of Peggy's eyes gave promise of darkening and deepening into the violet of thoughtfulness for others, sentility, womanliness. The pale gold of her hair too seemed like a wave to richer tints with the sheer of bounding health and potential magnetism in the curves and waves of it.

This was before the poisonous potion of vanity began to grow and obscure the vision of Peggy. It was before gold changed the shine in those blue eyes to hard cold glitter; before the chemist was called in to keep femininity from entering the pale gold gate.

The girl had another gift besides the one of beauty.

She could wear clothes. As a child a year or two of cheap clothes and a high ribbed smash would transform Peggy into a sort of a nebulous fairy. It was invariably a surprise when the child turned her back to note the absence of vanity between the frail little shoulders.

Later, when skirts dropped from knee to shapet, Peggy could make a dimly frock make the costliest creation of her crown look like the sale day in a cheap department store. Which was well, for the parents of Peggy were sadly lacking in this world's goods and their daughter was already developing that precious propensity to land herself on the top heap of life.

By and by the beauty of Peggy coupled with her ability to look like a princess in bazaar maid's clothing, caught the eye of a merchant in her store. From that moment the opportunity to sell his lead-potato models at a fair profit. Women customers themselves the victims of vanity, would never stop to consider that what made Peggy look like a princess was the result of many a less gifted girl from a sack of meal with a string around the middle.

Peggy went to work. There was a great deal of the familiar in the young model because she was the star of the household, one to whom every other member must defer.

This was only the beginning. The agent of a large metropolitan concern, Peggy in her new rôle of success and success, she try something more pretentious. It sounded dazzling.

The salary was momentous. The girl could scarcely contain herself for joy. She spent hours before the mirror, trying to make up to what she now was convinced must be her arresting and compelling beauty.

The city was kind to Peggy. She became a headliner in her profession. Her name was clipped in following chiffon or snuggled down in folds of priceless fur, peered from the eyes of every fashion magazine of note. One famous artist put her in the cover of a periodical. Two or three others had asked her to pose as model for them.

Right here is where we reach the peak of the upward grade with Peggy. Gradually, imperceptibly at first, the unceasing desire and thick blanket the poisonous vanity vapors began to enshroud her.

Men fluttered the fair model un-

til she was in the full bloom of her power.

Her vanity was now absolute. She no longer considered it necessary to groom herself for the fray.

She considered she was so beautiful that any extra attention to the picture was superfluous. Vanity had lost its system.

"Have you seen Peggy?" some one asked the other day. "She is looking pretty needy. Lost all her freshness. Thought she must have ducked her head in a sour barrel. And make up! All ready to go on for the first act."

Good Health and Disinfection Are Partners

Homes in which proper disinfection is an every-day habit are seldom visited by contagious diseases.

Frequent disinfection kills the germs of typhoid, diphtheria, grippe, influenza, or any other communicable disease.

Lysol
Disinfectant

Toilet-rooms, sinks, drains, floors, window-sills, garbage cans, dark corners—all are favorite birthplaces for disease germs.

Sprinkle a solution of Lysol Disinfectant frequently in all such places. Insist that Lysol Disinfectant be added to scrubbing water, too.

Used regularly, Lysol Disinfectant kills germ life or prevents its creation.

A 50c bottle makes five gallons of powerful disinfectant; a 25c bottle makes two gallons.

Remember, there is but one genuine Lysol Disinfectant—made, bottled, signed, and sealed by Lehn & Fink, Inc.

Lysol Toilet Soap
25c a Cube
Lysol Shaving Cream
In Tubes

Contains the necessary properties of the antiseptic ingredients of Lysol Disinfectant to meet the needs of the skin. It is also refreshingly soaping, healing, and helpful for removing, healing, and helping to remove the dirt and grime of shaving. If you have been "tired" and want him to order a supply for you.

GASOLINE ALLEY—THEY'VE HAD AN EVENING OUT.

Pasadena
FURNITURE CO.

Ten Floors—In a Location That Enables Us to Sell for Less

Unrivaled Values and Personal Service Are Basis of Our Business Policy

To maintain the lower prices made possible by our low overhead expense and large volume of business, and to render to each customer such service as shall best help him to meet his personal needs, are the ideals on which is founded the business success that has made this store known throughout all Southern California.

Our beautiful furniture stock, our exceptional values in rugs and draperies have brought us customers from all parts of the Southwest and the courteous service and unrivaled facilities for home betterment which they have found here have made them personal friends of our store.

We can and will serve you as well as we served them if you will come to us with your home furnishing problems.

The Beauty of Hospitality

The chief beauty of a home is its hospitality. No matter how simple and unpretentious it may be, true hospitality makes it a delight to its owners and their friends in a way that no amount of luxury and beauty, lacking that spirit, could accomplish.

Perhaps there is no one article of furniture that is more suggestive of that spirit, or that adds more to the grace and dignity of its functions than a tea wagon.

We have them in Period styles in oak, mahogany and walnut, several with drop leaves. The following items are suggestive of the values offered.

Jacobean Oak Tea Wagon—\$24.00
Two-wheeled model; neat design.

Tea Wagon in Mahogany Finish—\$32.00
Very similar to the foregoing.

Walnut Tea Wagon—\$36.25
Period style. Four wheels.

—There are also a number of tea-carts in reed and fiber shown on our seventh floor.

PEN POINTS
BY THE STAFF

Sparks show which way the marriage license clerk blows.

Plenty of room for all Americans at the Harding front porch.

Here's a slogan—Harding and Coolidge for Home and Country.

Why a prohibition candidate when there is nothing to prohibit?

Our deepest sympathy goes out to the grass in that Harding front yard.

Luther Burbank ought to fix the grapefruit so that it would not require sugar.

Why not let well enough alone when it comes to the Board of Commissioners?

But there is this to be said for both Harding and Cox—neither had a cigar named for him.

The Russians had an easier time than Admiral Peary—they had no trouble at all discovering the Pole.

The daily post we meet is now saying, "Any way you can get the Ohio will have the next President."

A down East seer predicts the end of the world on September 1. He probably has a note due on that day.

It is getting so now that with the advancing cost of wool, there may be about \$1.75 worth in every suit.

An orange grower is headed as chairman of the local Democratic campaign committee. Is he a voter of a duty on citrus fruits?

It is expected that if Cox and Roosevelt are elected Ray Green will be envoy extraordinary and minister plenipotentiary to the court of the King of Madagascar.

Bidders for the Big Island yard must deposit a certified check for \$1,000,000 with their bid in order to have it considered. That bids the bidders to the glibber.

Don't be beat all how glad Mitchell Palmer has become since the San Francisco convention! The Pennsylvania statesman seems to be able to sleep at night and no longer makes him afraid.

The death of "Tama Jim" Wilson Secretary of Agriculture, calls the fact that he was the only "dirt farmer" ever appointed by an administration. He began his career with President McKinley.

It is announced that Wilson will confine his campaign efforts to the issuance of a statement or two before the November election. He issued one in October 1918, and spilled the beans.

If the campaign in California is to be based on the Wilson Treaty unnamed where is Uncle Jim to go? Is it off? We want to know the inclusion of Article 19 in the draft of the document.

There is but a handful of Democrats in Los Angeles, but they make as much noise as if there were a million of them, recalling the boy and his paean by the side of the marshy hedge these early fall nights.

Gov. Cox presented a fine watch to his convention manager, Ed. H. Moore, in mark of his appreciation and esteem. We know nothing of the character of workmanship of the timepiece, but we do know that Moore got the job of managing soon afterward.

Voters in this country will more interested in what Gov. Cox proposes than about a host of important questions that will confront his administration, if elected, in the amount of money sought to be raised by the opposition to see his defeat. Cox is inclining small-town stuff. But he is a town candidate.

Another thing, do the twenty Senators of the Democratic party who voted for the League of Nations represent the Democratic party or a portion of it? or are they represented in the list? Is the name of Senator of California. Are these Democrats? What is their position? In the eyes of President Wilson or Gov. Cox? The people are engaged in contradictory action on a vital question. The twenty-one Senators of the States, could call a convention of their own, proposing amendments which would become valid on approval of members of the convention. It is easy—but it isn't.

I am sorry I don't have time to show you. "Let me honest man," said the man, "I'm not saying anything." The man is our deal bottom in with that

"answered

From the city's disillusions, and its woes and sins. Oh, let us hate away! And its hard-won fare To the mountains old and new.

To the mountains old. To the mountains bold. Oh, let us hate today! Where the true heart burns Mid the brakets and ferns To feel kind nature's sway.

Where the murmuring brook Through the old pine trees Lulls the tired heart to rest. "There, oh, let me lean With a faith serene On earth's reposse breast.

PLAN TO BUILD SCENIC DRIVE.

Auto Road Through Arroyo Seco is Considered.

Arcadia Balloon School Takes on War Days' Appearance.

Japan's Creed Menace to World, Says Speaker.

[LOCAL CORRESPONDENCE]
PASADENA, Aug. 29.—Los Angeles probably will be invited to join with Pasadena in the construction of a scenic boulevard along the bed of the Arroyo Seco, from Garvanza to the mountains. This throughfare would afford an easier traffic between the two cities, and also would open a more direct route to the mountains, both from Los Angeles and Pasadena.

Whether the larger city interests itself in the project or not, Pasadena is expected to go ahead with the improvement inside the city. One suggestion is that of City Engineers. Doubt it is being considered. This boulevard would be a substitute for Sheldon Drive, which it was proposed to construct along the top of the east bank of the Arroyo Seco.

The Arroyo Seco boulevard would be one of the State's most scenic highways. It would be a popular drive for sightseers. At the present time there is no automobile road up the beautiful Arroyo Seco, except for occasional short stretches.

BUSY WITH BALLOONS.

There is greater activity at the United States Army Balloon School at Arcadia just now than in many months past. Sixty balloons are being used every day in the instruction of cadets, and four others will be brought into use early this week. Twenty-six cadets are being trained as observers and eight additional army officers are now on their way here from different points to take up aerial observation work. There is a shortage of officers in the service, and cadets as fast as they are graduated will receive second lieutenants' commissions. In the Regular Army and in the Air Service Corps. There is said to be a shortage of 2000 second lieutenants in the Army today. The enlisted personnel is about 800. A new blimp is expected at the school soon and when it arrives there will be a course in dirigible training. At the present time there are 300 men and seventeen officers at the post.

OUTDOOR PLAY.

The Pasadena Community Players will stage their first production of "The Piper" in the open air at Brookside Park tomorrow night. More than 100 children are in the cast. The children's department of the Community Playhouse under direction of Miss Sybil Eliza Jones, is co-operating with the adult players in the production of "The Piper." Gilmore Brown is in general charge of the enterprise.

SLAPS THE JAPS.

Robert E. Pruet, pastor of Angeles spoke before the men's Bible class of the Pasadena Presbyterian Church this morning on the subject of "Japan's Creed Menace to the Peace of the World." He has a residence of Japan twelve years. Mr. Pruet believes that world conditions and Japan's relation to these conditions demand of the American people that they study the fundamentals in the life and character of the Japanese. These fundamentals, he says, find expression in the creed of Japan, which he characterizes as a menace to friendly intercourse and the peace of the world.

He believes the Japanese consider themselves superior to the white race.

ALL SCHOOLS TO OPEN.

Higher Salaries Attract Teachers to the Work.

[SPECIAL CORRESPONDENCE]
REDLANDS, Aug. 29.—Prof. H. G. Clement, superintendent of the schools of Redlands, has been made president of the County Board of Education, with Mrs. Grace Stanley, county superintendent of schools, as the secretary of the board.

The meeting of organization held today, resulted in plans being made for the year's work, and also for the examinations which are to be held. The examination will be held this week. There have been fifty applications for teachers filed and there is even indication that all vacancies will be filled. The salary will be necessary to close some of the county schools as last year. There are not so many men and women leaving the work of teaching since the salaries have been adjusted, according to Mrs. Stanley.

ARTERIAL THIRTY YEARS.

[EXCLUSIVE DISPATCH]
POMONA, Aug. 29.—Spend a graduation gift to a grandchild at Henderson, Ky., in reply to an announcement card of her graduation from high school today, led to the reunion of F. W. Alley, local jeweler and his wife, Mrs. Mary Alley, of Phoenix, Ariz., after a period of thirty years, in which time neither sister nor brother had been corresponded with each other. The grandchild writes Mrs. Henderick's of her uncle in Pomona and suggested that she look him up on her next visit to Southern California. Mrs. Henderick's unannounced appearance at the Alley home today, came as a joyous surprise.

THE ARROYO SECO BOULEVARD would be one of the State's most scenic highways. It would be a popular drive for sightseers. At the present time there is no automobile road up the beautiful Arroyo Seco, except for occasional short stretches.

BLOOD POISONING CLAIMS VICTIM.

[EXCLUSIVE DISPATCH]
LONG BEACH, Aug. 29.—Although he was not taken ill on Tuesday of this week, Ralph Lemen Taylor, Jr., 14-year-old son of Dr. Ralph L. Taylor, City Health Officer, died today from acute blood poisoning.

About ten days ago the youth burned his hand slightly on an exhaust pipe while working on an automobile, but little attention was given to the injury. Yesterday, when he complained of feeling ill, Wednesday evidences of blood poisoning developed and he died shortly before noon today. Funeral services will be held Tuesday.

BLOOD WILL TELL.

[EXCLUSIVE DISPATCH]
LONG BEACH, Aug. 29.—Glenn Coolidge, 17-year-old cousin of Calvin Coolidge, Republican vice-presidential nominee, and a high school debater, has started in business for himself here, opening a soda fountain at Anaheim street and America avenue. The youth is a son of Mr. and Mrs. Glenn Coolidge, 519 East tenth street. During the long vacation he was active in Long Beach as a four-minute man speaking in taht competition in the Red Cross, Liberty Bond and other patriotic campaigns.

BATHER INJURED.

[EXCLUSIVE DISPATCH]
LONG BEACH, Aug. 29.—Jessie Coolidge, 19 years old, of 11 Randolph street, was sustained a broken and badly-lacerated leg this afternoon when she struck a submerged piling while bathing in the surf in front of the Pacific Bath House. She was taken to the Seaside Hospital for medical treatment.

THE SHEA IS SAMPLING \$85 A ton in gold, silver and copper values across a five-foot face in its large pump installed at the \$600 level. The property has profited as its claims cover much of the level expansion upon which the camp may spread. There also is an asset of value in the large surface "blow-out" carbonaceous shale that may profit by the development of a new dredging process now being worked out at Humbleton. W. E. Defty of Phoenix is in general charge of Dundee.

The Shea is sampling \$85 a ton in gold, silver and copper values across a five-foot face in its large pump installed at the \$600 level.

The examination is open to citizens of the United States between the ages of 18 and 35 years, who have resided in the city of Los Angeles continuously for one year.

CIVIL SERVICE EXAMINATION DATA CHANGES FOR NEXT MONTH.

CIVIL SERVICE EXAMINATIONS FOR FUTURE POLICE WILL BEGIN AT THE NORMAL HILL CENTER, Grand avenue and Hill street, at 9 a.m. on Sept. 23, at 9 a.m. Applications must be filed with the commission not later than noon, Sept. 18. Applicants must appear in person. Blank forms may be supplied on request. Salary to beginners will be \$120 to \$150 a month.

The examination is open to citizens of the United States between the ages of 18 and 35 years, who have resided in the city of Los Angeles continuously for one year.

THE deep heart interest in a boy, the self-sacrifice, the great amount of individual attention given to the student, the Academy's democratic atmosphere and absolute freedom from home—these are some of the features that are appealing.

GIRLS IN BAD HEALTH

Hundreds of girls go to work day after day, afflicted with some ailment peculiar to their sex, dragging and not weary after the other, working always with one eye on the time. Every such girl should go to Lydia M. Pinkham's Regent Compound to restore her to a sound healthy condition, then work be a pleasure. For forty years Lydia M. Pinkham's Regent Compound has been pre-eminently successful in curing the diseases of women. Why don't you try it?

THE AUTUMN FABRICS
and PATTERNS NUMBER

2,000,000 packages of Tuxedo "tea-foil," reduced from 12 cents to 10 cents, to be sold exclusively in this section

Seize this opportunity—it may be a long time before 10 cents will buy so much good tobacco again

We are changing the size of our Tuxedo Tea-Foil package from 1 1/4 ounces to 1 3/4 ounces. This new size—1 3/4 ounces—will sell for 15 cents.

We have 2,000,000 packages in 1 1/4 ounce size, and to close it out quickly, the entire lot will be offered on the Pacific Coast at 10 cents a package. When this is gone TUXEDO Tea-Foil will be sold in 1 3/4 ounce packages for 15 cents—the same weight as the tin package selling at a higher price.

Every 10 cent Tea-Foil package you buy now means so much money saved.

Go to your Tobacco Shop—put down your dime and get your package. Tell your friends—it will interest them.

Tuxedo is also sold in the famous green tin—a package curved to fit the pocket.

—which means that if you don't like TUXEDO Tobacco you can get your money back from the dealer.

NEW BUS STRIKE DENIED.

Reports from Bakersfield that were active in interfering with its twenty drivers of the Motor Transit attempt to maintain service, were not taken back with the other men.

"The increases asked were granted and everything was adjusted to the satisfaction of the men," said Mr. Powell, "and the independent drivers were permitted to remain on strike; that is, we simply did not take them back. So far as we are concerned they will stay out."

Service on the Bakersfield division, as on all other divisions of the company, is normal, he asserted.

on pier concessions will be reinstated the city more than \$8000.

Amusement leaders declare the new system is working harm against the welfare of the pier joys and that Kinney, who put Venice on the map, is entitled to the blanket license because it is there every anniversary.

The Trustees, however, in their decision stated that the blanket license was not just and not in keeping with the purposes of fair taxation.

DESMOND'S WILL NOW BE OPEN ALL DAY SATURDAYS

Noble Seraphs Help Tigers Into Pacific Coast Lead by Twice Swatting Mormons on Chin.

ANGELS SIMPLY MASSACRE BEES.

Killefer Grabs Double-Header by Close Scores.

Both Contests Marked by Many Verbal Scraps.

Seraphs Cop Five Out of the Seven Games.

BY ED O'MALLEY.

All hell to our Angels! Staging a remarkable come-back last week they litigated on the chesty Mormons and muzzled them up out of 7.

To accomplish this delightful piece of work, Red Killefer had to cop a double-header yesterday and this he did. The piece set to music would sound something like this: First game 6 to 5, second game 5 to 6.

SOME BATTLES.

The desperate struggle took place before one of the largest Sunday crowds that have assembled at the park this year. Every foot of the journey was fought bitterly.

Throughout both struggles the fortunes veered one way and then another and excitement was kept at high pitch until the last man had been disposed of in each contest.

HOOK FOR PETE.

Properly armed with brass players and umpires gave an added zest to the sport. During all the verbal fracases, however, only one player, Pete Lapan, fell under the arbiter's hand. He was thrown out in the last inning of the second game for disputing Jimmy Toman's judgment on balls and strikes.

The first game found Gould operating on Petes. The latter were off in his world and was passed good and plenty. He was relieved by Lefty Thomas in the fourth, the latter of whom heaved a fairly good game thereafter.

Gould started out fair, well, but from fourth and fifth frames the Seraphs began to lurch him severely. Ernie Johnson took him out in the sixth and substituted Leverett, who twirled excellently thereafter.

When the Angels got to the plate in the ninth they needed one run to win and this they forthwith went out and gobbled. The joyful work was compassed about like this: Foxy Red Killefer languidly raised one foot back to Killefer, "I'm in trying to get the sensational third wild to Sheely and Red died at second."

OH, WHAT A THREW.

McAuley was an easy out Sheely to Krug. Red going to third, Cran dall walked. Then Johnny Bassler sent a fly to top, but the ball got lost in the sky. Made a great catch, hit his short throw to the plate was something awful and Killefer snored. It looked like suicide for Red to run with Hoag as close in, but it was a quick move and Red got away with it.

The second game found Ray Keating on the mole hill for the Celestials, and believe us Bob, he sure did pitch a peach. The score was 5-4. It had the Bees up in the air and they were hitting everything but the ball.

WHALE OF A CATCH.

Toward the end, however, as the shades of night were closing in they began to nick Ray rather lively and continually. And the final blow struck by Arnold Stas in the ninth, the Mormons might have tied up matters. Lefty Cullop stepped off the visitors and got by fairly well until the seventh, when his base hit exploded.

In the seventh the Angels fell upon his harmless curves and on four hits, put three runs over the rubber. It then looks as if the celestial team had won the first of the ninth, the mortified Bees pulled themselves together and almost evened up matters as before: Johnson fled to Killefer, Weller to Killefer, and the grand stand grew uneasy. Sheely singled to center, scoring Weller, but Mulligan fled to Stas and Hoss struck out. The scores:

CARDS ROCK HUBBELL.

ST. LOUIS, Aug. 29.—St. Louis beat the Red Sox 10-2. Red Sox' bats hit Hubbell hard, and easily won today's game from Philadelphia. 8 to 2. North was effective in the pinches.

PLATE SWEEPER.

ST. LOUIS, Aug. 29.—Red Sox' bats hit Hubbell hard, and easily won today's game from Philadelphia. 8 to 2. North was effective in the pinches.

RED SOX WIN.

ST. LOUIS, Aug. 29.—Red Sox' bats hit Hubbell hard, and easily won today's game from Philadelphia. 8 to 2. North was effective in the pinches.

SAC'S GOBBLE TWO FROM THE SEALS.

ST. LOUIS, Aug. 29.—Sacramento took two from San Francisco, the morning game, 4 to 2, and the afternoon game, 5 to 3. The morning game ended in the eleventh inning when the Seals scored two without the aid of a hit or a walk by Kamm and Connally, a base on balls and two sacrifice flies brought in the two runs.

In the afternoon game, Sacramento's Fournier, Fletcher, and North, 4; by Hubbell, 2. Walk-Hubbell.

LETTER FOR MEMSIC.

SAN FRANCISCO, Aug. 29.—Sacramento took two from San Francisco, the morning game, 4 to 2, and the afternoon game, 5 to 3. The morning game ended in the eleventh inning when the Seals scored two without the aid of a hit or a walk by Kamm and Connally, a base on balls and two sacrifice flies brought in the two runs.

In the afternoon game, Sacramento's Fournier, Fletcher, and North, 4; by Hubbell, 2. Walk-Hubbell.

FAT PRICE FOR KERN OIL LAND.

Third of Million Paid to Get Jones Estate Holding.

Midway Company Also Finishes Purchase Deal.

Many Old Wells Being Drilled to Gain New Depth.

OFFICIAL CORRESPONDENCE

BAKERSFIELD, Aug. 29.—An oil land deal involving 2400 acres of choice property in Kern county and a consideration of \$322,000 was consummated during the past week by consent of the Superior Court of Kern county.

In the deal the Standard Oil Company came into possession of oil lands formerly owned by the late Elmer E. Jones, pioneer oil man of the Kern County fields. The transfer was made by Lillian E. Jones, Credit of \$200,000 paid in advance to the oil company by the Jones.

Ten tests for water shut off were attempted last week in the Kern county fields in seven different districts and if successful, ten more would be pumping oil within the next six weeks.

The General Petroleum Corporation has its No. 90 well in the Belridge district on Sec. 18, 29-32.

The American Oil Fields added another well to its string of producers on Sec. 36, 31-32.

The No. 4 well which came in at a depth of 2500 feet with an initial capacity of 300 barrels per day.

The Potter Oil Company which recently purchased the holdings of the Visalia-Midway Oil Company, a consideration of something more than \$350,000, is about ready to bring in No. 6 well on the Visalia-Midway property. The well was commenced at 2180 feet. It is proved to be a gusher, having been encountered at about 2500 feet. The company has installed a new boiler plant and has it in operation at Folsom.

STRIKE STOPS SALE.

Reported discovery of oil in the Tulare Lake district, stopped the sale of a large tract of land there a few days ago when the owner immediately put up the price. As the Probate Court was about to confirm the sale of a tract of forty acres in the bed of Tulare Lake in Tulare County, the estate of Frank W. Robinson deceased, at an appraised price of \$500, the attorney for the estate notified the court that he had received a bid of \$75 for the tract from the Hutton parties. The same son given for this advance was that oil has been reported to be discovered a mile away from the property. The court postponed the sale for two weeks while an effort is being made to obtain higher bids.

With eight new oil wells started in Kern county during the past ten days and twenty-three others being drilled or redrilled, the recent development of the Central California fields has already started, and by the time the promised materials and supplies are forthcoming, it is predicted, work on a larger scale than has ever been experienced in the history of oil production in the southeastern section of the field highly attractive.

According to a report current in the local mining circles, the report to come from the stockholders' meeting of the stockholders' stockholders' Consulting Engineer George E. Garber will show ore reserves valued at fully \$6,000,000. Developments on the 250-foot level continue highly satisfactory, cross-cutting will be started from the \$80 and 1800-foot levels.

The Crackerjack Company at Goldfield is also earning good profits with the output of about 1000 tons a day.

Goldfield Deep mine has started enlargement of the Goldfield Combination shaft preliminary to sinking to a depth of 3000 feet in the classic vein.

The Nevada-California Silver Mining Company has completed installation of a twenty-ton mill, three drill compressor, and other equipment at its Carboneas mine. A large amount of ore has been taken out to \$160 to \$250 per ton, is exposed, together with much milling ore. The vein has been cut 750 feet below the apex by the long tunnel and the Grand Canyon has recently been changed and a small output was taken in 1919. A part of the output was sold to customers in America and the remainder was sent to Japan.

The Nevada-California Silver Mining Company has completed installation of a twenty-ton mill, three drill compressor, and other equipment at its Carboneas mine. A large amount of ore has been taken out to \$160 to \$250 per ton, is exposed, together with much milling ore. The vein has been cut 750 feet below the apex by the long tunnel and the Grand Canyon has recently been changed and a small output was taken in 1919. A part of the output was sold to customers in America and the remainder was sent to Japan.

For further interest to prospectors and stockholders, we note another from the excellent writer referred to that. Thus far asbestos has been mined only in the western part of the Arizona asbestos field, on Ash and Cherry Creeks, and in the Grand Canyon Reservation. The formation contains asbestos. It is nearly flat and extends eastward into Fort Apache and the San Carlos Indian Reservation. (Ed. Note: The San Carlos Reservation, as we have stated, is now known to production areas, one in the Gila River valley and the other about forty miles northwest of Globe. The route to the Grand Canyon has recently been changed and a small output was taken in 1919. A part of the output was sold to customers in America and the remainder was sent to Japan.)

The New Company proposes to issue 1,804,534 shares without nominal or par value fully paid up and non-assessable in exchange for each preference share of the Old Company, and to the common shareholders of the Old Company two shares without nominal or par value of its common stock fully paid up and non-assessable in exchange for each common share of the Old Company.

BIG FUN to Expand.

The Big Four, officially known as the United Artists, appear to be about to become the Big Five or even quite possibly the Big Six. To the, renowned names of Mary Pickford, Douglas Fairbanks, Charlie Chaplin and D. W. Griffith are about to be added two others, which has been famous on the stage as well as on the screen. At least, one of them is quite certain, while the other is still awaiting confirmation.

There are two names: Mrs. Alla Nazimova and John Barrymore. The famous Metro star may elect to remain with Metro. She has said she wishes to, but, of course, terms have not yet been arranged.

On the other hand, it is known that the United Artists are also anxious to number her distinguished name among their own. It looks, though, as if Metro were fishing very hard for her, and it is difficult to pay the big sum necessary to secure the film right to "Aphrodite." This is the last picture Mrs. Nazimova has to do under her present contract.

John Barrymore has quite definitely decided to throw in his fortunes with the Big Four, according to well-authenticated rumor. After making one more picture for Famous Players-Lasky, he is to form his own company and go into business with the United Artists, who are known to have been negotiating with him for some time.

Clara Young with Pathé.

Clara Kimball Young has signed a contract with Associated Producers and will release through Pathé, according to word just received from New York.

It is understood her salary is the same as that of the other stars. Her productions are to have the advantage of unlimited time and money, with all stories approved by herself.

Alma Torriani Engaged.

Alma Torriani, daughter of the well-known New York vocalist, Mrs. Torriani, and herself an accomplished violinist and singer, has been engaged to appear at Talley's Broadway this week in connection with "The Fortune Teller," starring Marjorie Rambeau.
